

User: Alice Mar 18

Who organized my longest outdoor activity in March?

Question → **LLM Agent** → Answer

Query → **MemCatalog** → **Retrieved memory**

How to use? **How to store?**

For Performance — Query-specific pipelines

(a) Single-fact retrieval

Who organized the hike?

target
hike-1

Ground → **Verify**

subject	predicate	object
hike-1	organizer	Ava

Select

value
Ava

(b) Independent composition

How many March activities were outdoors?

activity	setting
hike-1	outdoor
pottery-1	indoor
ride-1	outdoor

Evaluate *outdoor?*

activity	yes?
hike-1	1
pottery-1	0
ride-1	1

Combine *1 + 0 + 1*

count
2

(c) Dependent composition

Who organized my longest outdoor activity in March?

outdoor	duration
hike-1	4 h
ride-1	3 h

Compare *4 h > 3 h*

longest
hike-1

Bind

target	property	value
hike-1	organizer	Ava

For Efficiency — Cost-aware execution
